Our Mission

Help our clients and future clients discover the variety of dessert we offer to them. They can navigate through our menu and know about all the flavors we have and services we offer them.

Our history

This cake shop was founded in Nicaragua. It began its functions in 2020. At the beginning it was focused on a small part of the population, focusing on cakes, desserts and cookies only for birthdays. These special desserts had fresh ingredients with a homemade touch that caught costumers' attention. Dolce Vita bakery offered homemade recipes with healthier ingredients for customers. It was adapted to the necessities, tastes and designs that the clients want. At the end of 2021, the founder Martha Ruiz moved to the United States. Dolce Vita began offering their services in the United States through online orders through Facebook. Today the business is still online. Its services are offered to the general population. They are receiving orders from churches, schools, non-governmental organizations and all kinds of people who want to sweeten their taste with a bit of dessert.
